YAS technology focus – 21-24

- N365 on shared tenant ✓
- Legacy call centre technology ✓
- Medicines Management platform
- Replacement vehicle Mobile Data and control room solution (for dispatch) platform
- Technology for a national 999 Intelligent Routing platform and a 111 Single Virtual Contact Centre
- Continue to develop EPR, Transfer of Care and Post Event Messaging and further integration to the Y&H Care record
- Ambulance Data Set (ADS) – to SNOMED standards
- Develop N365 Power app functionality to front line and corporate staff

Thank You
