Made Tech

Made Well Collective

Championing Open & Collaborative working to better support
our NHS

ICS – Working together at Scale

We expect that as provider collaboratives evolve and begin to deliver benefits, resources may be generated through efficiency savings

Shared priorities - shared rewards

Create the space to enable co-funded collaboratives

**Mission
one**

1. Health & Care shared priorities
2. Seek out co-funders
3. Pool resources

Reduce duplication

Build once benefit many

Shared expertise

In it together

Mission two

Build a repository of modular “Open” solutions for reuse

1. Share more than just the code
2. Make it easy to adopt & adapt
3. Open source as standard

Reusable

Adaptable/Adoptable

Free to use

Enjoying the journey

Upskilled team to continue evolution

Mentoring	Upskilling	Sustainability
Pairing	Skills matrix & learning plans	Responsible choices
Peer reviews	Coaching juniors	Avoid knowledge silos
Buddys	Mobbing & workshops	Continuous learning

Digital Capabilities 

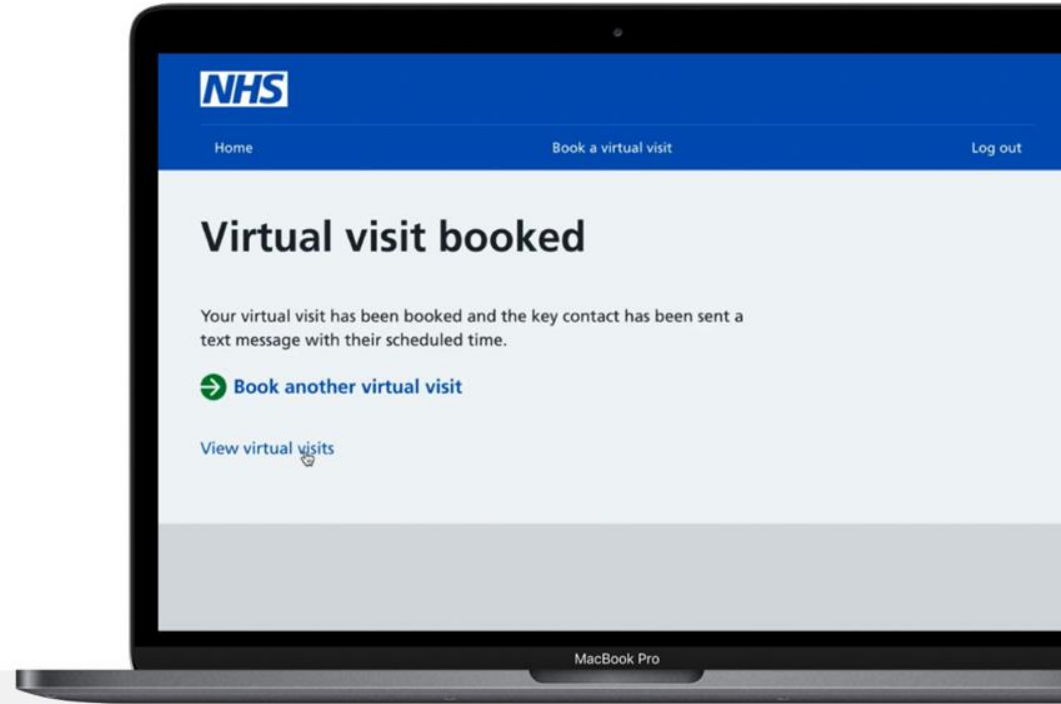

Homegrown solutions 

Sustainable change

Virtual Visits

Connecting hospital patients with loved ones during COVID

Made Tech partnered up with Hillingdon, Kettering, and London North West University NHS Hospital Trusts to develop an open source virtual visit service.

Speak to us about virtual visits at stand VG9

On Your Mind – NHS Glos

Making NHS Gloucestershire's mental health services more accessible to children and young people

Made Tech worked closely with the NHS in Gloucester to digitalise access to over 100 mental health support services.

What can I do to help

If you work in Health & Social Care

Join the Made Well Collective

Look to Co-fund

Look for reuse opportunities

I'm a digital delivery partner

Open source your software and artefacts

Adopt reuse in your projects

Include upskilling as a part of your delivery outcomes

Come to say hi :-)
