HEALTH INNOVATION MANCHESTER

Innovation Collaborative.

for digital health

Scaling technology-enabled remote monitoring for the benefit of all.

Delivered in partnership with

**Innovation
Collaborative.**
for digital health

About the collaborative.

A learning and support network for health and care professionals delivering digitally-enabled services to support people at home, including care homes.

Creating opportunities and resources with local teams for local teams, supporting health and care systems to develop as learning health systems.

Delivered in partnership with

Commissioned and delivered by NHS England in partnership with the AHSN Network, led by Health Innovation Manchester.

Focused on Regional Scale Plan projects funded by Supporting People at Home programme.

#NHSInnovCollab

Collaborative vision

..to foster a learning and support system that enables NHS and care teams in England to rapidly connect, learn from each other, share successes and valuable learning from challenges and in doing so raise the ambition to co-design solutions with staff and citizens to scale digitally-enabled care at home.

Delivered in partnership with

**487,000+ people
supported at home
including 152,000+
care home residents.**

from November 2020 to January 2023
through Regional Scaling Plan projects.

#NHSInnovCollab
