Case study: NHS Kettering and Northampton trusts

Asana set-up through GenD

- A trust-wide solution away from spreadsheets and to have consistency between projects and departments.

- A standard tool for collaboration and reporting as they had mismatches in monitoring and measuring. Asana being a 'single source of truth' solved this

- Integrations and Reporting.
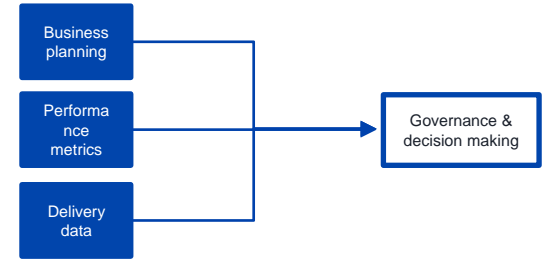

- Forms and intake projects.

Developing a better understanding of our delivery

- What are we working on?
  - Planning
  - Collaboration
  - Standardisation with flexibility

- How well are we doing?
  - Reporting - automation
  - Integration – PowerBI, teams

- Are we seeing the benefits of our work?
  - Reporting
  - Integration

Where are we now

350+ users in 30+ teams

12 active portfolios

Transformation

Digital

Strategic estates

People

500+ projects

6 active PowerBI reports

Whats next

- Integrating with more data sources: IGR, project level data sets

- Embedding reporting and insights into decision making

- Embedding into priority setting and business processes

- Supporting good PPM practice

Dedicated to *excellence*
