Initiatives ... to bring nuance to our approach

- LTC health checks earlier in the year
- Targeted SMRs
- Continuity
- Holistic care

The four 'I's of PHM

Infrastructure

The set of basic building blocks that are core for a system to manage the health and wellbeing of a population

Intelligence

Understanding population need and using tools and techniques to align need with effective interventions

Interventions

Building on the learning from the analytics to make decisions; identifying effective, evidence-based interventions

Incentives

Aligned payment and incentives (API) are key to supporting the PHM approach and sustaining local models

Key Considerations

- Bring your clinicians along on the journey – keep it locally led
- Bring your community along on the journey
- Evaluate
- Iterate
