How did we do it?

What was the hook?

GIG CYMRU NHS WALES | Addysg a Gwella Iechyd Cymru (AaGIC) Health Education and Improvement Wales (HEIW)

Undertaking the Digital Capabilities Framework has given me some valuable personal insights into specific areas where I can improve my knowledge, skills, competence, and behaviours in this area. It enables you to identify your strengths and areas for improvement and the end report is presented in a variety of ways including infographics. You can view the results as wider themes or by individual competence, helping to break down and interpret the information in a way that is meaningful, and the icing on the cake is there are links provided to resources to support your development. As a registered nurse I am going to use the assessment of my digital capabilities as part of my revalidation as the framework is easily mapped to the four themes in the NMC Code.

Elizabeth (Lli) Bennett

Powys Teaching Health Board

GIG CYMRU NHS WALES | Addysg a Gwella Iechyd Cymru (AaGIC) Health Education and Improvement Wales (HEIW)

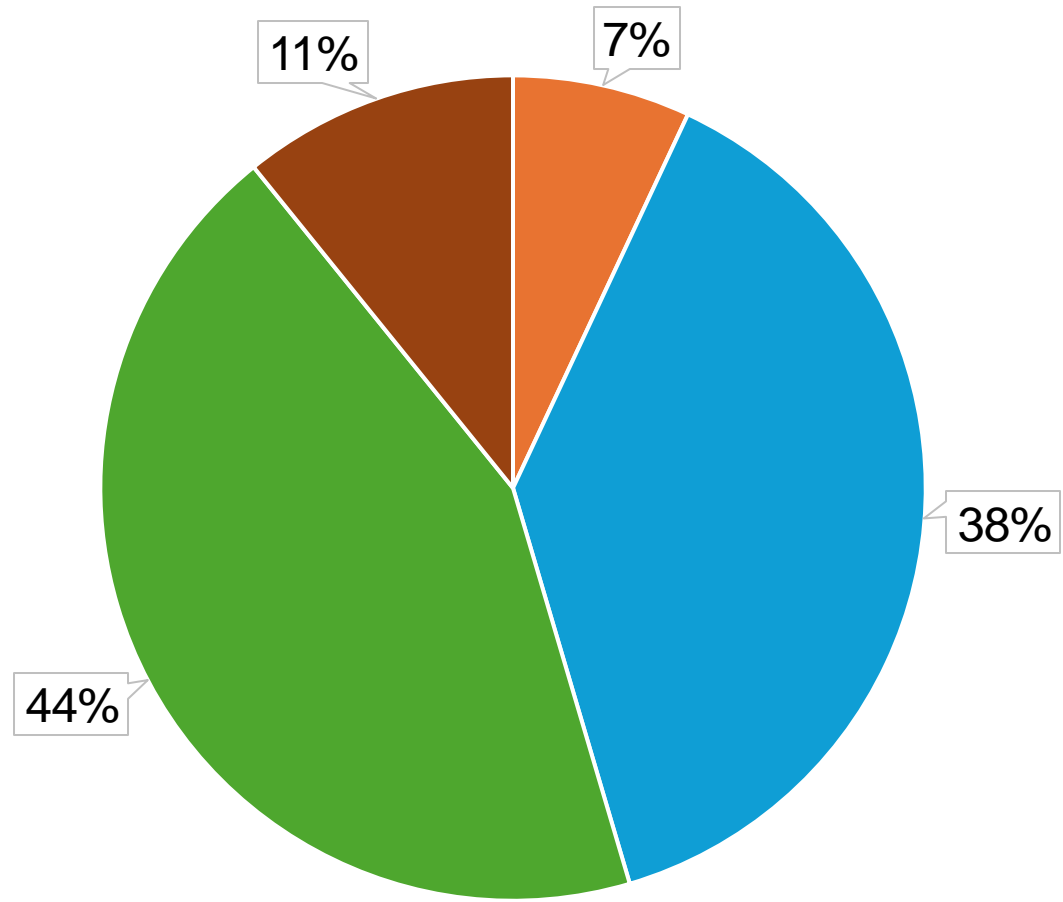

Undertaking the digital capability framework self-evaluation has been very beneficial to my practice regarding digital healthcare. Working within a team which relies heavily on digital systems, it is important for me to understand my strengths and weaknesses. The feedback received following the questionnaire was helpful in identifying areas of improvement, with helpful links to undertake learning. I feel confident that i can meet the new Health and Care Professionals Council (HCPC) standards for Digital and Technology now.

Ben Jenkins
Integrated Care Clinical Lead - CSD
Welsh Ambulance Services NHS Trust
